2. The following is an examiner's statement of reasons for allowance:

The Applicant's arguments stated on page 11 of his remarks filed on 10/18/2006 were carefully reviewed. As the results, claims 1-30 are allowed with the reasons stated as followings:

The prior art of record fails to clearly teach or fairly suggest a method of operating a telecommunications system that enables operation of a mobile telephone at different user rates that are dependent on the instantaneous location, characterized in that, inter alia, *the mobile telephone transmits a second signal to a base station of the telecommunications system which switches over to a different user rate in response to the reception of the second wherein the second signal indicates that the first signal has been received and that hence the mobile telephone is within the limited range*, as substantially described and connected to all independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
